HUZAIFA ALAHMAD

Prompt Engineer | AI Automation Specialist | Generative AI Systems Designer
Dubai, UAE | +971 563951817 | huzaifaalahmad23@gmail.com | behance.net/huzaifaalahmad23

PROFESSIONAL SUMMARY

Innovative Prompt Engineer & AI Systems Designer with 3+ years of experience in generative AI, LLM optimization, and AI-driven automation. Specialized in prompt engineering, system prompt design, context engineering, and intelligent workflow automation using platforms such as ChatGPT, Claude, and Gemini. Strong background in software architecture, API integration, and scalable AI solutions, with proven experience delivering impactful AI systems for international clients remotely from Dubai.

TECHNICAL SKILLS & COMPETENCIES

Prompt Engineering & LLM Specialization

- Advanced Prompt Engineering: Few-shot prompting, chain-of-thought prompting, role-based prompting, prompt chaining for multi-step workflows
- LLM Optimization: Context management, token efficiency, instruction clarity, output formatting, semantic understanding
- System Prompt Design: Crafting sophisticated system prompts for specialized AI agents, conversational AI personas, domain-specific assistants
- Prompt Chaining & Workflows: Sequential prompt orchestration, multi-stage AI processing, workflow optimization
- Human-AI Interaction Design: Conversation flows, user experience optimization, intelligent fallback mechanisms

AI Tools & Platforms Expertise

- LLM Platforms: ChatGPT (GPT-4, GPT-4o), Claude AI (Claude 3 family), Google Gemini, OpenAI API, Anthropic API
- Generative AI Tools: Midjourney, DALL-E, Stable Diffusion, Perplexity AI, specialized domain-specific AI systems
- AI Workflow Platforms: Zapier AI, Make (formerly Integromat), Custom AI automation ecosystems
- API Integration & Development: OpenAI API integration, Anthropic API implementation, REST API management for AI services

AI Automation & Business Applications

- AI Workflow Automation: Business process automation using LLMs, intelligent task orchestration, efficiency optimization
- Content Generation Systems: AI-powered content creation frameworks, multi-format content generation, quality assurance workflows
- Data Analysis & Extraction: Intelligent document processing, structured data extraction, semantic analysis
- Business Intelligence with AI: Insights generation, pattern recognition, predictive content strategies

Software Development & Implementation

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, responsive design implementation
- Backend & Integration: API development, system integration, cloud services, database management concepts
- AI-Assisted Development: Code generation with AI, prompt engineering for development optimization

Design & User Experience

- Visual Systems Design: Brand identity systems, design-to-code implementation, UI/UX principles
- Conversational UI Design: Chat interface design, AI assistant UX, dialogue flow optimization
- Design Tools: Adobe Creative Suite (Photoshop, Illustrator, Premiere Pro), Figma, design system documentation

PROFESSIONAL EXPERIENCE

Prompt Engineer & AI Systems Architect (Freelance/Consulting)

H-87 Digital | Independent Creative & Tech Studio | Dubai, UAE
February 2019 – Present

- Architecting advanced prompt engineering workflows and AI automation systems for international clients, leveraging ChatGPT, Claude, and Gemini APIs
- Designing sophisticated system prompts and conversation frameworks for specialized AI agents serving diverse business domains
- Optimizing LLM interactions through advanced context management, prompt chaining, and token-efficient instruction design
- Developing intelligent content generation systems utilizing multi-stage prompt orchestration and quality assurance workflows
- Integrating AI APIs into custom web applications, implementing AI-powered features with semantic understanding and predictive capabilities
- Implementing business automation frameworks using generative AI, reducing manual processes and accelerating operational efficiency
- Translating complex brand strategies and business requirements into intelligent AI workflows that enhance user engagement and satisfaction

AI Content & Workflow Integration Specialist

Great Matters | Remote
July 2025 – Present

- Developing AI-driven content strategy frameworks and prompt engineering workflows for campaign optimization
- Engineering conversational AI experiences and chatbot architectures for improved customer engagement
- Optimizing content generation pipelines using LLM APIs and multi-stage prompt orchestration

Frontend Developer & AI Integration Engineer

Illustrate Marketing | Dubai, UAE & Remote
June 2024 – January 2025

- Implemented AI-assisted features into production web applications, integrating OpenAI and Anthropic APIs
- Designed and deployed conversational AI interfaces using React, achieving high user engagement metrics
- Engineered intelligent content systems leveraging LLM APIs for real-time generation and optimization
- Optimized prompt delivery and response handling for production-scale AI applications

Graphic Designer & Brand Systems Specialist

Multiple International Clients (Remote & On-site) | 2023 – 2025

- Developed comprehensive visual identity systems and brand guidelines leveraging design-to-AI-systems thinking
- Created AI-optimized visual hierarchies and communication frameworks supporting multi-platform deployment
- Designed digital marketing assets with consideration for AI-powered content generation and personalization

EDUCATION

Bachelor of Science in Information Engineering

University of Aleppo, Syria | Graduated: 2024

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

AI & Prompt Engineering Certifications

- **Certified Prompt Engineer** – Advanced training through official Claude AI platform by Anthropic | 2026
- **"One Million Arab Coders / AI Experts" Initiative** – Certification supported by Dubai Future Foundation and Dubai Future Academy | 2026
- Design Fundamentals Certificate – Adobe (Coursera) | 2025
- Generative AI Content Creation – Adobe (Coursera) | 2025
- Adobe Creative Suite Comprehensive Training – Projects International SY | 2024
- Web Design & Development Fundamentals – IECD | 2022

Continuous Learning Focus

- Advanced practical training in Prompt Engineering, Generative AI Systems, AI Workflow Optimization
- Deep specialization in LLM capabilities (ChatGPT, Claude, Gemini), context engineering, and prompt chaining methodologies
- Continuous self-development in evolving AI ecosystems, monitoring latest releases and optimization techniques

LANGUAGES

- **Arabic** – Native/Fluent
- **English** – Upper Intermediate (B2 CEFR Level)
